

# GF-16 CAMERA CRANE SYSTEM

A MODULAR, RIDEABLE, REMOTE CRANE FROM **ARRI MEDIA GRIP**

The GF-16 is a state-of-the-art crane system that addresses the demands of the operator while giving the DoP an amazing range of flexibility.

- Set-up is quick and easy
- 15 configurations can be achieved with the modular design
- The base dolly has independent, double ended steering providing excellent manoeuvrability
- An adjustable mounting column allows assembly of the arm at a low height, giving the operator more options when adapting to the location or set

## SPECIFICATIONS

### Max Remote Height

1531cm 50' 2"

### Max Platform Height (2 man)

895cm 29' 4"

### Max Platform Height (1 man)

1053cm 34' 6"

### Base Width

140cm 4' 6"

### Base Length

148cm 4' 9"

### Base Weight

400kg 880lbs

### Total Weight

2231kg 4907lbs

### Max. Wind Speed

15.6mph 25km/h
